Ali Asghari

Software Developer

Istanbul, Turkey | Email: asghari.ali10@gmail.com | Linkedin: www.linkedin.com/in/ali-asghari

SUMMARY

Experienced and results-driven Software Developer, adept in Python, Django, Flask, and agile methodologies. Proven track record in optimizing applications and enhancing operational efficiency. Holds a Master's in Computer Science with expertise in unmanned vehicle path planning.

EXPERIENCE

Mozayedegar — *Technical Team Lead*

September 2022 - present

- Lead and manage a team of 3 developers, resulting in a 60% improvement in project delivery efficiency through the implementation of best practices.
- Initiated knowledge-sharing initiatives, facilitating a 70% increase in team members' skill enhancement via mentorship.
- Revamped the design process by introducing agile methodologies, resulting in a 20% reduction in project delivery time and a 15% decrease in rework.

Skills: Technology Leadership, Python, C#, .NET Framework, PostgreSQL

Nobitex — *Software Developer*

April 2021 - September 2022

- Developed and maintained financial reports, managing a monthly volume of over 2,000 reports.
- Engineered a platform for periodic report storage, accommodating a daily load of 90+ reports.
- Created RESTful APIs handling an impressive volume of 3+ million requests per day.
- Developed an internal admin website, driving a 30% increase in task efficiency and a 20% boost in overall operational productivity by streamlining workflows.

Skills: Python, Django, Flask, PostgreSQL, Docker

Snappfood — *Software Developer*

October 2019 - February 2021

- Developed and maintained Snappfood's Express app, supporting a seamless experience for 3,000+ daily orders.
- Managed the financial transaction service for 1,000+ bikers on a weekly basis, ensuring efficient and secure transactions.
- Developed monitoring service of key performance indicators (KPIs), resulting in a 70% increase in overall performance and a 40% reduction in operational inefficiencies of the management team.
- Implemented Docker Swarm for service deployment resulting in 30% faster project deployment.

Skills: Python, Flask, PHP, Angular, PostgreSQL, MongoDB, Docker

Pezeshke Khoob — *Software Developer*

January 2019 - September 2021

- Developed RESTful APIs accommodating 1.5+ million monthly requests.
- Led the creation of a cost-effective monitoring system with Python and Angular, resulting in a 70% monthly savings.
- Successfully upgraded a PHP website to a Django platform, yielding a 10% boost in revenue.

Skills: Python, Django, Angular, PHP, PostgreSQL

Arasnama — *Software Developer*

July 2017 - August 2018

- Constructed RESTful APIs adeptly managing 1,000+ daily requests.
- Spearheaded the introduction of features contributing to a remarkable 90% monthly revenue increase.

Skills: Python, Flask, PostgreSQL

EDUCATION

Tarbiat Modares University, Tehran — *Master's Degree*

September 2020 - September 2022

Studied Computer Science. My Thesis title was "Path Planning for Unmanned Aerial and Ground Vehicles to Cover a Terrain".

University of Tabriz, Tabriz — *Bachelor's Degree*

September 2014 - September 2018

Studied Computer Science. My final project was a chatbot written in python and Used Neural Network for training it.

SKILLS

Python 3, Django, Flask, C#, SQL, PostgreSQL, MongoDB, Git, Docker

LANGUAGES

English: Fluent, Turkish: Intermediate, Persian: Native
